Summary

Frontend Developer specializing in React and Next.js. ITI Scholarship student focused on Full-Stack Web Development and Generative AI. Passionate about building clean, optimized logic and responsive interfaces using Tailwind CSS.

Experience

Information Technology Institute (ITI) **Cairo, Egypt**
Full-Stack Developer Intern (Intensive Training Program) *Jan 2026 – Present*

- Developing responsive, high-performance interfaces using HTML5, CSS3, Tailwind CSS, JavaScript (ES6+), and TypeScript with clean OOP.
- Architecting seamless frontend-backend integration via REST APIs, ensuring code reliability through Jasmine unit testing and Agile methodologies.
- Leveraging AI tools to optimize workflows while gaining foundational knowledge in C#, PHP, SQL Server 2022, and MySQL.

Technical Projects

You & Me Shop – E-Commerce Platform | *React.js, TypeScript, Tailwind CSS* **Live | GitHub**

- Configured a fully responsive store with advanced filtering, sorting, and real-time search, ensuring a seamless user experience for apparel and accessories.
- Managed global application state using Redux Toolkit and integrated REST APIs for dynamic data fetching and cart management.

React Store – E-Commerce Application | React.js, Context API, ES6+, CSS3 **Live | GitHub**

- Designed a specialized e-commerce frontend application using Context API for state management, featuring multi-criteria filtering and product search.
- Implemented interactive user reviews and a mobile-first responsive design, enhancing frontend logic for high-performance product displays.

15 React Projects Showcase | React.js, TypeScript, Sass, Context API **Live | GitHub**

- Built 15 modular applications (Cart, Slider, Stripe Menu, etc.) with a focus on reusable component architecture and clean code practices.
- Applied OOP principles and modern styling methodologies to deliver diverse UI/UX solutions and improved web performance.

Medical Services App | PHP, MySQL, JavaScript, jQuery, Bootstrap **Live | GitHub**

- Architected a full-stack healthcare platform featuring secure user authentication and a relational database for appointment management.
- Built a responsive frontend integrated with MySQL to handle dynamic data storage and retrieval for medical records.

Technical Skills

- **Frontend Engineering:** React.js, Next.js, TypeScript, JavaScript (ES6+), Redux Toolkit, Context API.
- **Styling & UI:** Tailwind CSS, Sass, Bootstrap, HTML5, CSS3, Pug.js, BEM.
- **Backend & Databases (Familiar with):** C#, PHP, SQL Server 2022, MySQL, REST APIs.
- **Core Concepts:** OOP, Responsive Design, Agile, Jasmine Testing, Git/GitHub, Problem-Solving.

Education

Al-Azhar University **Cairo, Egypt**
Bachelor of Computer and Systems Engineering *Oct 2017 – Jul 2022*
Graduation Project: MedCare – Full-Stack Medical Services Application (PHP)

Languages

- **Arabic:** Native.
- **English:** Fluent / Professional Working Proficiency ***(Ex-Customer Service Representative at Concentrix – English Account)*.**
